

The Awakening Center WA Presents:

Sensory Enlightenment Plus

March 25 Evening, 7 pm

March 26 & 27 Workshop, 10 am - 5 pm

Are you ready for the Divine Tsunami?

*Around the World and in the US of A, People are Awakening.
How is this happening and what can you do to Awaken?*

Stuart Mooney is a psychologist who participated in the first studies of T.M. in the 70's. Awakened since 2004 and living in a state of Oneness or Unity Consciousness since 2006, now his own state has been studied with brain scans.

Alina Shalev reached Awakening in 2010 via Oneness University processes.

These enlightened teachers will share and guide us to understand the awakening process as a biological, sensory process and why it is no longer necessary to spend arduous hours in meditation. Expand your consciousness with this opportunity to soak in the Divine!
